

MEGATOR

Pumping & Pollution Control Solutions

Lightweight, Stainless Steel Skimmers For Recovery Of Oil & Effluent.

The Megator Alpha Skimmer is one of the most versatile designs on the market. Made entirely from tough, corrosion resistant stainless steel, the Alpha Skimmer can deal with a variety of aggressive liquids at varying depths and concentrations.

- ⊖ Waste water treatment
- ⊖ Storage tanks
- ⊖ Leachate ponds
- ⊖ Sewage plants
- ⊖ Petrochemical processing
- ⊖ Ponds & lakes
- ⊖ Equalization tanks
- ⊖ Airports
- ⊖ Railway depots
- ⊖ Sheltered harbours & docks
- ⊖ Sumps & boreholes
- ⊖ Manufacturing Facilities

⊖ Sewage scum removal

⊖ Oil recovery from a pond

⊖ Effluent removal at a chemical plant

Alpha Skimmer

- **Lightweight design** - Easy one man operation
- **Adjustable intake weir** - Enabling the skimmer to be set for optimum efficiency
- **Tri-float design** - provides exceptional stability
- **Comprehensive range** - Available in four sizes, 1½", 2", 3" & 4" hose connections
- **Shallow draft** - Can operate in 300mm (12") water depth
- **Versatile** - Build options include; Folding skimmer, Screen kit, Detachable floats, Guide rails & Mooring eyes

➤ The folding skimmer option provides exceptional versatility, allowing the skimmer to be lowered through manholes and boreholes; 'self-deploying' on contact with water.

➤ The Alpha Skimmer fitted with a screen kit, preventing floating debris choking the skimmer.

➤ Fitted with guide rails & mooring eyes. Securing the skimmer in the desired area, yet allowing it to rise and fall with the water level
